

note: since we cant see future asigments  
ahead of time, i have no idea what the  
end goal of the software is, so  
uhhhhhhhhhhhh no idea wtf to plan out  
really.

a simple menu structure intended to  
allow the user to reach a specified  
function based on their input

else/if statments to  
simply reach the  
intended function  
from the input  
choices presented  
to the user
